PROFESSIONAL SUMMARY

Data Analyst with 2+ years of experience turning raw data into actionable business insights using SQL, Power BI and Excel. Experienced in data extraction, data cleaning, data transformation, KPI reporting and dashboard development across sales, inventory, customer, HR and road-safety datasets. Completed 9 analytics projects across 8 business domains. Skilled at translating analytical findings into clear recommendations that support business decisions.

SKILLS

Core Skills: SQL, Power BI, Excel, Python, DAX, Power Query, T-SQL, Data Visualization, Dashboard Development, KPI Reporting, Data Cleaning, Data Analysis, ETL, Data Modeling

SQL and Databases: Microsoft SQL Server, T-SQL, Joins, CTEs, Window Functions, Aggregations, CRUD Operations, Stored Procedures, Foreign Keys

Power BI and Data Visualization: Power BI, DAX, Power Query, Data Modeling, Interactive Dashboards, KPI Reporting, Data Visualization

Excel: PivotTables, Pivot Charts, VLOOKUP, Advanced Formulas, Data Cleaning, Dashboards, Reporting

Python and Analytics: Python, Pandas, NumPy, Web Scraping, Machine Learning, Random Forest

Data Preparation and Systems: Data Extraction, Data Cleaning, Data Transformation, ETL, Trend Analysis, Reporting Automation, Statistical Analysis, Regression, Correlation, Odoo ERP, Microsoft Office

PROFESSIONAL EXPERIENCE

Data Analyst | T-Shirtk Company | Feb 2024 – Present

- Extract and analyze sales, inventory and customer data from Odoo ERP to support business reporting and operational decisions.
- Clean and transform transactional data using Excel and SQL to improve data consistency and reporting reliability.
- Develop dashboards and KPI reports tracking revenue, best-selling products and inventory movement.
- Identify sales and stock trends to help stakeholders monitor performance and make data-informed decisions.

SELECTED PROJECTS

- **HR Analytics Dashboard** (Excel): Analyzed 1,470 employee records; found 237 leavers (16.12% attrition) and a 2.6 out of 5 satisfaction score; attrition highest in Sales and ages 25 to 34.
- **E-Commerce Sales Analysis** (Excel, Power Query): Built a KPI dashboard on $2.3M sales, $286K profit, 37,873 units and 9,994 orders; flagged a 12.47% margin that fell 5.15% year over year.
- **Car Sales Dashboard** (Power BI, DAX): Tracked $371.19M YTD sales, 13.26K cars and a $27.99K average price with MTD and YoY views; showed 23.59% growth and SUVs and Hatchbacks at 22%+ of sales each.
- **Road Accidents Analysis** (Power BI): Analyzed 144K accidents and 196K casualties; showed accidents down 11.7% and fatalities down 33.3%; 61.95% urban and 73.84% in daytime.
- **Adidas Sales Performance** (Power BI): Analyzed $900M sales, $332.13M profit and 2M units (42.3% margin); identified Men's Street Footwear ($209M) and July ($95M) as peaks.
- **Customer Performance** (Power BI, DAX): Segmented 18,000 customers (71% with children) and $307M revenue: Loyal $273M, Periodic $20M, VIP $14M; ages 31 to 40 led with $80M.
- **Netflix Content Analysis** (T-SQL): Wrote 15 SQL analyses using CTEs, window functions and aggregations across content type, rating, country, director and release year.
- **Library Management System** (T-SQL): Designed a 5-table relational database with foreign keys, CRUD operations, a fine rule of 0.50 per day after 30 days and branch performance reports.

EDUCATION

Bachelor of Computer Science | Mansoura University | Sep 2020 – Nov 2024

- Graduation Project: Predicting Postpartum Depression Using Machine Learning (Random Forest), rated Excellent.

ADDITIONAL INFORMATION

Languages: Arabic (Native), English (Intermediate)

Strengths: Analytical Thinking, Problem-Solving, Communication, Teamwork, Time Management, Attention to Detail, Adaptability
